Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1-5, and 7-10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification lack bases for the term "covalently bonded" as now added to amended claim 1. The specification also fails to disclose some of the "polymeric particles" or "crosslinked polymeric particles" as now claimed in claim 1. Applicant alleges that the bases for the particles are provided in claim 6 (originally filed). Originally filed claim 6 does not includes all the particles as "crosslinked", see. For example "anion exchange resin", "polypropylene", "polyethylene". Bases for the polymeric particles should be clearly provided in the specification, including the crosslinked and non-crosslinked particles.
2. The text of those sections of Title 35, U.S. Code 102 and 103 not included in this action can be found in a prior Office action, dated 10/11/05, which rejection is maintained.

Response to Arguments

3. Applicant's arguments filed 1/30/06 have been fully considered but they are not persuasive. Arguments based on the amended claim, as directed to the covalent bond has not clear bases in the specification. As to the crosslinked particles, applicant has partial bases as indicated in the rejection above. The rejection of the claims, and restriction are maintained. The addition of non-crosslinked polymeric particles is

disclosed in the prior art of record and discussed in the office action of 10/11/05. Since the amendment is not fully supported by the specification, the rejection is maintained.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
